Post Kit 1 x Post, 1 x Post Cap, 2 x decorative cover inserts, 1 x post base, 4 x post base bolts
& 2 cross bolts.

INSTALLATION OF POST BASE

Concrete foundation

1、Bolt the post base on a flat strong concrete foundation. It is recommended to space 1800mm

apart between 2 post bases, then mark the hole site of the post base.

Figure 1

2、Pre-drilling a Φ12mm hole, then use the expansion bolt (M8*70) to fix the post
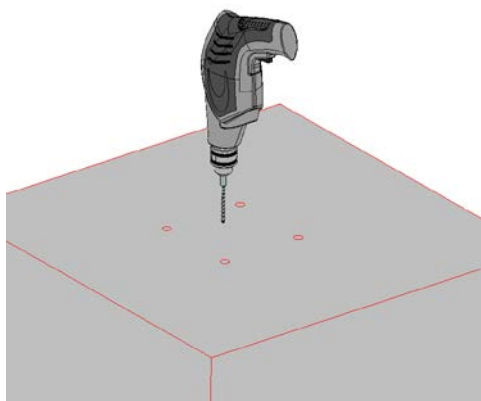

base to the ground.

Figure 2

Figure 3

INSTALLATION OF POST

1、 Insert the post into the post base as shown in the figure 4.

2、 When the post reaches the bottom of the post base, fix the bolt M5*50 to the post (shown in the figure 5). Using small wrench.

Figure 4

Figure 5
